

## **WAM Materials Guide**

If you have questions about how to use all of the WAM materials that are attached to the email, here is how each of them can be used:

### **WAM at Home PDF**

If you as the parent have questions for how to help or to answer questions that might arise, use this page.

### **Coloring Page**

Print this off and give to your younger WAMmers (age 4-1st grade) or have everyone color it (including you grownups!)

### **Verse Doodle**

Print this off and have 2nd grade and older WAMmers use this page to create their own artwork and think a little more deeply about the scripture text behind the song.

### **Parent Guide**

This is a "lectio divina" approach to the week's scripture passage that accompanies the song. While your children are watching the video lesson, use this as an individual study and a way to talk with your child(ren) about the verse throughout the week. If you want to participate in the video lesson with your child(ren), use this as a supplement to your own individual Bible study throughout the week.

### **Song mp3**

Download this to your phone and listen to the song in the car or add it to a playlist of your kids' music to sing the song throughout the week or practice along with on the piano at home!

I hope these are helpful and you can enjoy worshiping and learning through music together as a family!

Make a joyful noise!

Jaycie
